

Dear Dr. Vardi,

Thank-you for the donation of toys in your name to "St Theresa's Childrens' Home". The toddlers have no toys at their disposal and have been overwhelmed with excitement to have the pleasure and stimulation of something in their cots.

The Thusanani Childrens Foundation strives to provide stimulation to pre-schoolers in HIV affected environments and to educate care-workers on the importance of play and normal development. Hands on Occupational Therapy is also provided to those children who are severely delayed and are otherwise unable to attain their milestones. The intervention is also aimed at facilitating normal development to encourage adoption.

Thank-you for assisting with laying down the foundations to healthy and happy little beings.

Yours sincerely,

Lara Hirschmann (Trustee; Thusanani Childrens Foundation)
