30 June 2003

Dear Glen

I am sure you will agree that the meeting on Tuesday 24th June was very useful for all of us in exchanging preliminary knowledge about the ACI v MACI Trial and also the procedure from now on. The physiotherapists I met also were very enthusiastic, which is an important part of the Trial as well.

I think we should meet approximately every six months and the date of Tuesday 25th November has been suggested, at a similar time so it is possible for you to travel here in the morning for a start of 10.30 to 11.00am.

Thank you all very much for attending. Please keep in touch and let us know if there are any problems.

Yours sincerely

GEORGE BENTLEY, ChM, FRCS
Professor of Orthopaedic Surgery
